Budget Transparency Guidance

Local Education Agencies and Public School Academies must make all of the following available through a link on their website home page. If you do not have a website, you must either develop one or work with your Intermediate School District (ISD) to report the information on the ISD website.

ISDs must make some of the following available through a link on their website home page. Specifically, ISDs must provide sections a, bi, and ci – cvii below.

For statewide consistency and public visibility, districts must use the icon developed by the Department as the home page link to their budget transparency information. The icon must be positioned so it is **immediately viewable** after your home page has loaded, regardless of screen size or web browser. The size of the icon must measure at least 150 x 150 pixels. Please visit our <u>website</u> to download the icon. When using the version without text, the text "Budget & Salary/Compensation Transparency Reporting" must accompany the icon using means suitable for the website platform and current technical standards.

- d) Employee Compensation Information: Please provide the total salary and a description and cost of each fringe benefit included in the compensation package for the superintendent or Public School Academy equivalent. This information must be provided, regardless of salary amount. For districts without a superintendent, this information must be disclosed for the top administrator listed in the Educational Entity Master. This information must also be disclosed for all employees whose salary exceeds \$100,000. Salary is defined as Medicare wages on the employee's most current W2. MCL 423.201 defines a public school administrator as "a superintendent, assistant superintendent, chief business official, principal, or assistant principal employed by a school district, intermediate school district, or public school academy." The report should also, at a minimum, include the identification of each individual on the trip, the destination, and purpose of the trip. This report should be updated within 30 days of your FID submission, no later than December 1.

All data elements defined in the statute must be available through a link on your website home page in the form, manner, and time frame defined in this guidance.

Each data element found in the legislation must be on your transparency page. If you do not have information to post for a data element, please write a line stating you do not have any applicable information to provide. Examples may be found in Supplement 1.

For new schools opening in 2022-23, information will not be available for sections requiring previous fiscal year data. However, these sections must still be included on your transparency page. Please provide a line stating that because this is your first year of operation, data is not available.

Language in the State School Aid Act (MCL 388.1618 Subsection 11) imposes a state school aid penalty on districts that do not comply with Budget Transparency reporting.

The following supplements illustrate the form and manner prescribed by the Department.

- Supplement 1: This template shows the sequence, headings, links, and narratives for the data elements. For statewide consistency and ease of use, all districts should follow this template when designing their website. It sometimes helps to see what others have done on their websites. Please contact us using the information at the bottom of this page, and we shall recommend a website to view.
- Supplement 2: These are some examples of the required transparency documents. It may be easier to provide a narrative for particular data elements, in lieu of a document. These are noted in the supplement.
- Supplement 3: This is a Quick Reference Sheet developed to help keep track of the data elements, information required, and the time lines for updating each element.

Questions related to this guidance may be directed to Chad Urchike at urchikec1@michigan.gov or 517-335-1261.
